WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

NAME

Perm ICBM Complex, Probable Launch Site C12*

COUNTRY	GEO COORDINATES	WAC	BE NO	NPIC NO	COMOR NO
USSR	57-42N 056-22E	0156	None	16L9	None

REFERENCES

Location: 1.5 nm ENE of the Complex Support Facility

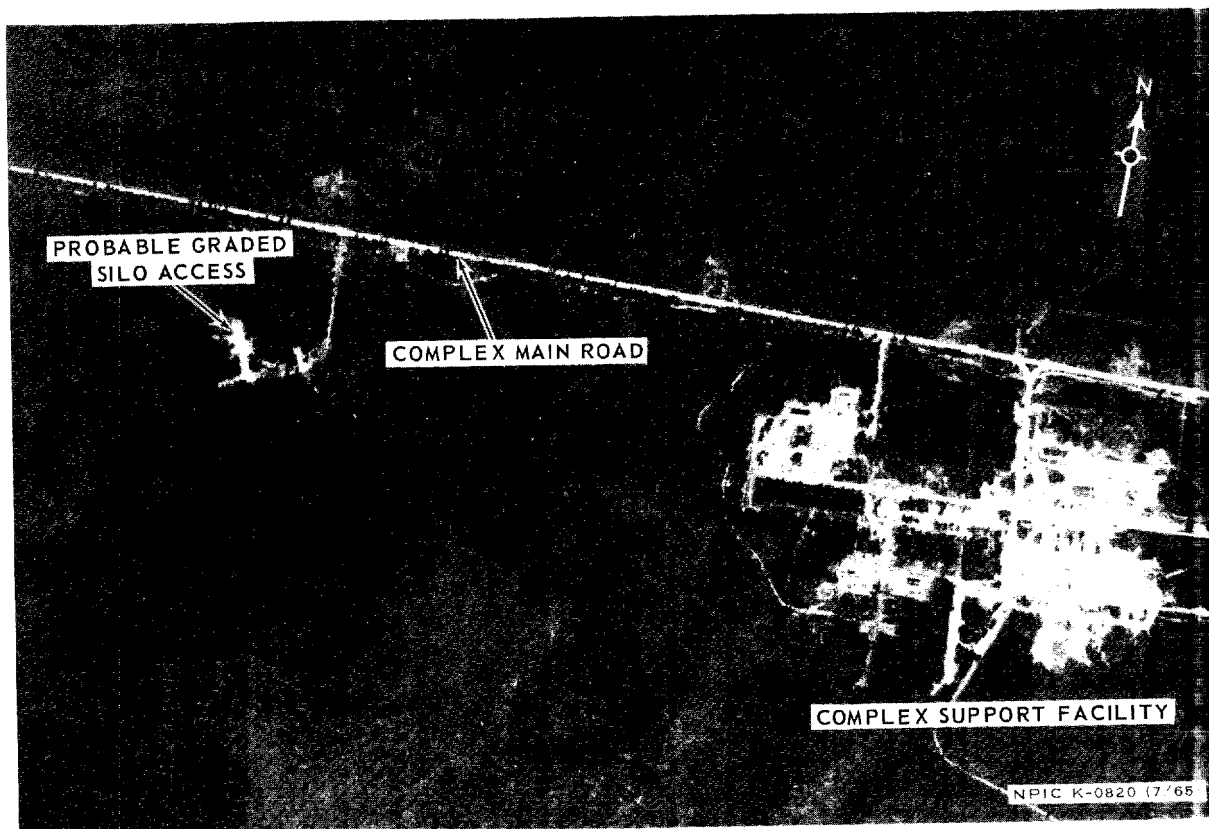

Type: IIID

Negation Date:

Stage of Construction: Undetermined Date First Seen:

This newly identified site contains a probable characteristic graded earthen silo access. The access is parallel to those at the other single-silo sites at this complex. A clearing for a road leads from the site toward a first-class road located near the rail line serving the complex support facility. Poor quality, non-stereo photography precludes additional details.

*Tentative group/site designator.
